## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4 and 8-15 are rejected under 35 U.S.C. 102(b) as being anticipated by Kunze et al. (U.S.P.N. 5,743,545).

Kunze a wheel mounting assembly for mounting a wheel of a wheelchair to a frame part thereof, the frame part including an upper side frame member (figure 2) and a lower side frame member, the wheel mounting assembly comprising:

- a. a connecting member (12) extending generally upwardly and downwardly between the frame members and adapted to be secured thereto; and
- b. a wheel-mounting member (see attachment A) extending adjacent the connecting member and secured thereto and to the side frame members, the wheel-mounting member having at least one formation for supporting an axle of the wheel.

With regard to claims 2-3, 8, and 12-15 Kunze discloses all of the claimed limitations.

With regard to claims 4 and 9-10, the examiner takes position that the word “adapted” is not a positive limitation but only requires the ability to so perform. Therefore, Kunze meets all the functional language limitations in the broadest sense.

***Allowable Subject Matter***

2. Claims 5-7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Amirola ('594), Roche ('243), Kueschall ('999), Geiger et al.
